Automatic Blanket Cleaner Cloth Rolls

Quality parts. Friendly advice.

When you want the best replacement ABC rolls in the industry call Santec. Need help with applications? Feel free to ask, our knowledgeable people are here to help.

Santec can fit every cloth type automatic blanket wash system, cylinder cleaner, chill roll cleaner and plate cleaner in your plant. Our in-house design and production staff can quickly meet any custom requirements or specifications.

- Made from DuPont™ Sontara®, the original, first-quality material for blanket cleaning, the only material specified by the original equipment manufacturers.
- Converted in our own plant for immediate shipment.
- Precision-made for exact fit and optimal cleaning performance.
- Extra long (XL) rolls available for reduced labor and downtime.

Santec manufactures and stocks automatic blanket cleaning cloth rolls for the following sheet-fed and web-offset presses:

Akiyama, Elettra, Harris, Heidelberg, KBA Planeta, Komori, Man Roland, Mitsubishi, Polly, Ryobi, Shinohara, Toshiba and many others.

To order: call 203-878-1379 or visit www.santec-corp.com

Fountain Solution Filters

Precision fit with smart support.

Our replacement filter elements meet or exceed OEM requirements.

- Manufactured with precision for an exact fit.
- Made from polyurethane foam, polypropylene and polyester felt, and polyester fiber media to meet original equipment specifications.
- All products are unconditionally guaranteed.
- Most items in stock for immediate shipment.

Santec Fountain Solution Filters are available for the following circulation systems:

Baldwin, Dahlgren, Halm, Herbert, MG Electric, Royse, Technotrans and many, many more.

To order: call 203-878-1379 or visit www.santec-corp.com

Wash-up Blades

Get it right with proven products.

Santec is the place to call when you want immediate access to a wide range of replacement wash-up blades and the support people who can get you exactly what you need. With our extensive inventory and knowledge, we can fit every press in your shop.

Santec has developed a wide range of replacement wash-up blades for excellent performance in all conditions. Together with strong chemical resistance to today's aggressive inks and solvents, Santec blades have proven their high quality both to the original equipment manufacturers and to the end users.

- Manufactured in our own plant to OEM specifications.
- Quick wash-up performance.
- Specifically formulated in rubber, plastic, and other specialty materials which ensure maximum performance and wear resistance.
- UV ink compatible blades available.
- Unique bonding process between metal and rubber for excellent adhesion.
- Sharp and perfectly straight wiping edges.
- 24 hour shipment.

At Santec our **Parts** come with **Smarts.**

Santec Corporation was founded on a simple idea; keep printers profitable with replacement parts and accessories of unsurpassed quality backed by knowledgeable, friendly people who know the products inside out.

That's been our mission since 1983.

When you call Santec, you'll get more than just an order taker, you'll speak with an experienced professional who knows your printing equipment and can help you find the exact part you need – even if you don't have a part number. When you have a unique application or custom order, our design staff excels in meeting your special needs quickly.

It's part of our culture to stay ahead of the curve through ongoing research and development – that's why we are continually upgrading equipment and investigating new ways to solve your problems. Part of that commitment is having resourceful people with know-how to go the extra mile for the hard-to-find parts you need to keep the presses rolling.

All Santec parts meet or exceed OEM requirements - and are precision-built in our efficient, state-of-the-art facility for exact and optimal performance. Our large inventory of products and the latest production machinery means you get consistent quality and rapid shipment at a great price. Absolute customer satisfaction is our promise – if you are ever dissatisfied, we offer either part replacement or a full refund – your choice.

So whether it is a blanket cleaner cloth roll, wash-up blade, fountain solution filter, hickey picker finger, or glue pad, you can count on us to get you not only the right parts you need to stay profitable, but the right answers too.

To order: call 203-878-1379 or visit www.santec-corp.com
